

Assignment #2/ Media Queries
Due: March 16, 2019

For this assignment, you will be using HTML5, CSS3 media queries and positioning to create a web site that works on a desktop, a tablet, and a mobile device.

Assignment Detail:

- **Pick a recipe** (of your choice); you will need an image, 3 potential links to other recipes, a section for the ingredients and a section for directions
- Use **HTML5 tags** for structuring your web site
- Create **3 CSS files** and use Media Queries to link to these based on screen size
- Use **CSS only** for positioning and formatting
- Colours, area sizes, etc. are your choice; make it unique but user friendly... NOTE: You must include borders (including border rounding where shown) and shadows where shown
- **Basic layouts** for each site are displayed below and these layouts must be used being sure to include your personal information where specified.
- **Other Information:**
 - - Use HTML5 to set up test links only
 - Make sure image is tasteful

Grading Rubric:
