

Quiz _3

For this quiz, you will be creating a form to gather user input. Your form must :

- Include all your styles in an external CSS file which must be included in a separate folder.
- Image must be included in a separate folder.
- Your name must be included in the title bar of the web browser and on the HTML form.

You will be creating a Human Resource Contact Information form that must include the following fields and attributes. Use fieldset, legend and tables to organize your form well.

Contact block

- First name field
- Last name field
- Email address field
- Focus should be on first field in this block
- All these fields are required fields
- All fields must include placeholder information
- Also include in this block a company logo (an image of your choice)

Recruitment block

- Field to enter years of experience
- Field to obtain which month of the year the user can start work
- A selection list to allow user to pick a compensation structure (must use radio buttons)
 - Salary
 - Salary with Bonus
 - Commission only
- A selection list to allow users to pick which region(s) they are willing to work in (must use check boxes)
 - East
 - West
 - North
 - South
 -

Other Information block that includes

- Number of references using a number with a range of 1-5 using a slider bar
- Comment area (multiple lines) for user to add additional information.
- A drop down list for the user to pick gender (Male, Female or Other).
- Include Submit and Reset buttons.
- Include a block under the buttons that will format and display the data collected from the 3 blocks when the Submit button is clicked.

Style and position your data entry blocks and your output blocks ... part of the mark will be on styling and positioning

NOTE: All quizzes submitted should be unique / No two quizzes should be setup, styled or positioned the same
